Guided walking tour of Lisbon city centre

12:30 – 13:30

Lunch

Lobby Bistro

13:30 – 15:00

Info session #1 for members and partners :

About PFAS, PVC and REACH - How can broad EU action on chemicals impact our specific industry?

In 90-minutes, industry experts will give you an overview of how the Chemical Strategy for Sustainability is being implemented in Europe. Regulatory attention both up- (on PFAS) and downstream (on PVC) of our production process could impact our industry and this session will describe recent activity here. An overview will also be given on the wider regulatory landscape with the update of REACH and other developments which are underway that concern the entire value chain.

New Orleans 3

15:00 – 15:30

Coffee break

Foyer New Orleans

15:30 – 17:00

Info session #2 for members and partners :

About climate goals, competitiveness and energy - Our road to 2050 and implications for future competitiveness

With the development of regulations to support 2030 climate targets, the European Union has now released a vision for 2040 to meet the 2050 climate neutrality goals. This may impact our sector at a time when our competitiveness is already challenged. This 90-minute session will cover these new targets and what industry is doing to reignite European industrial competitiveness within this new framework, whilst helping to reach Europe's Green Deal ambitions.

New Orleans 3

17:00 – 17:30

Coffee break

Foyer New Orleans

17:30 – 18:30
